

## ASME 2021 IDETC/CIE Conference 33<sup>rd</sup> Design Theory and Methodology Conference

### Call for Papers

Researchers and practitioners are invited to join us virtually August 17-20, 2021 for the 33<sup>rd</sup> International Conference on Design Theory and Methodology (DTM). The conference will explore a variety of topics related to the design of mechanical systems and products. Conference themes are clustered around: Design Theory, Design Methods, Design People, and Design Practice. Papers in other areas of design theory are also welcome.

Tahira Reid  
[tahira@purdue.edu](mailto:tahira@purdue.edu)  
2021 DTM Conference Chair

Joshua D. Summers  
[joshua.summers@utdallas.edu](mailto:joshua.summers@utdallas.edu)  
2021 DTM Program Chair

- **Design Theory:** New Models, Constructs, and Explanations; New Impacting Trends Impacting
- **Design Methods:** Prototyping, Imagery, & Other Representations; Biologically Inspired Design; Creativity and Ideation
- **Design People:** Entrepreneurship & Teams; Designer/Human Behavior in Design; Design Decision Making
- **Design Practice:** Design of Complex Systems; Inclusive Design; Engineering for Global Development
- **SPECIAL SESSION:** Lightning Talks on New & Revisiting Directions
- **JOINT (with DFMLC):** Design for Sustainable Product Use and User Behavior
- **JOINT (with SEIKM):** Intelligence Augmentation for Human Systems Integration
