

# ASME 2023 IDETC/CIE Conference 35<sup>th</sup> Design Theory and Methodology Conference

## Call for Papers

Researchers and practitioners are invited to join us for the 35<sup>th</sup> International Conference on Design Theory and Methodology (DTM) to be held from August 20 to 23, 2023 in Boston, MA, USA. The conference will explore a variety of topics related to the design of mechanical systems and products.

Conference themes are clustered around: Design Theory, Design Methods, Design People, and Design Practice. Papers in other areas of design theory are also welcome.

Vimal Viswanathan

- **Design Theory:** New Models, Constructs, and Explanations; New Impacting Trends
- **Design Methods:** Prototyping, Imagery, & Other Representations; Biologically Inspired Design; Creativity and Ideation
- **Design People:** Entrepreneurship & Teams; Designer/Human Behavior in Design; Design Decision Making
- **Design Practice:** Design of Complex Systems; Inclusive Design; Engineering for Global Development
- **Joint Session with DAC and DEC:** DfAM Principles and their Education

Submission: March 13, 2023  
Notified Acceptance: April 24, 2023  
Copyright Submission: May 12, 2023  
Final Submission: May 15, 2023
